Personal Profile

My passion for technology started when I watched a TV show about modern technologies and wondered how they are made. I figured out that behind every technical product is a group of dedicated developers making it happen. This became my career, and always to be looking for the opportunity to problems solving and develop creative solutions.

TECHNICAL SKILLS

- HTML 5 & CSS 3
- JAVASCRIPT
- BOOTSTRAP

Dear Hiring Manager,

I am writing to express my interest in the Cyber Security position currently available at your company. As a recent graduate in Cyber Security and a full-stack web developer, I am confident that I possess the skills and knowledge necessary to make a valuable contribution to your team.

During my studies, I developed a strong foundation in various security principles, including network security, threat analysis, and risk management. In addition to my academic background, I have hands-on experience with security tools and technologies. Furthermore, as a full-stack web developer, I have experience with programming languages such as JavaScript, PHP, and Python, as well as experience in developing secure web applications.

I am excited about the opportunity to work at your company. I believe that my passion for Cyber Security and my technical abilities make me a strong candidate for this position.

Thank you for considering my application. I am looking forward to the opportunity to further discuss my qualifications with you.

Sincerely,
